

## SMOKING CABIN MEZZO

### SMOKING CABIN

The smoking cabin Mezzo is ideal if you want smokers and non-smokers to stay in visible contact with each other. The combination of intensive air cleaning and the odourless storage of ash and cigarette ends ensures that the surrounding area remains free from annoying smoke and smells.

The smoking cabins are flexible in size and equipped to fit any interior. For situations in which smoking is only allowed in restricted areas, the smoking cabin can be mounted with sliding doors, optionally with a self-closing mechanism.

When dealing with a frequently visited public area the smoking cabin **Mezzo PA (Public Area)** is suitable with its double ashtray (large) with matching ash container and adjusted start/stop system.

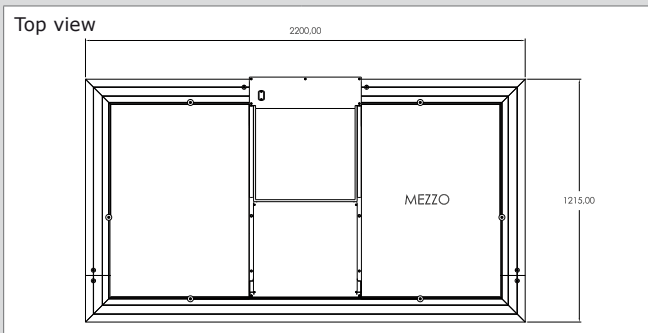

### CONFIGURATIONS

The smoking cabin Mezzo is available in the following configurations:	
Mezzo	Smoking cabin with filter cabinet, table top beech and 1 odourless ashtray (small).
Mezzo PA	Smoking cabin with filter cabinet, table top beech and 2 odourless ashtrays (large).

### TEST CERTIFICATES

Tested by renowned institutes like ECN and TÜV. BG-prüfzert mark by BGIA for smoking cabin configuration with sliding doors.
